20	80	\$4,886,294	8.03%	\$32,697	\$49,046

This is a hypothetical calculation only, not an offer or contract. Values provided are simplified for ease of calculation and your actual values may be higher or lower than those shown depending on actual contract activity. Please refer to the applicable product brochure and Statement of Understanding (SOU) for important details concerning the features and limitations of this product. This calculation must contain all pages and be accompanied by the applicable product brochure to be valid.

These values assume no withdrawals are taken prior to the Withdrawal Period and Restart is elected at the end of the 10th year. The current charge is equal to 1.15% of the Income Base and is deducted from the Account Value on each anniversary, at restart the charge may increase to a maximum of 1.50%. All Withdrawal Payments assume that the Withdrawal Period begins at the end of the year.

¹ The current guaranteed Roll-Up Rate of 7.20% is assumed for all applicable years up to the earlier of 10 years, age 90, or the date on which the Withdrawal Period begins. This rate may change upon Restart, subject to company discretion. The minimum guaranteed Roll-up Rate of 2.00% is assumed for contract years 11-20 up to the earlier of age 90, or the date on which the Withdrawal Period begins.

Issue Age 60, \$2,000,000 Premium, Deferred 0 plus X Months, Withdrawal Percentage 6.16%

Assuming Current Guaranteed Roll-up Rate of 7.20% / 2.00%¹
